Data in Many Forms . . .

Statistics Canada disseminates data in a variety of forms. In addition to publications, both standard and special tabulations are offered on computer print-outs, microfiche and microfilm, and magnetic tapes. Maps and other geographic reference materials are available for some types of data. Direct access to aggregated information is possible through CANSIM, Statistics Canada's machine-readable data base and retrieval system.

How to Obtain More Information

Inquiries about this publication and related statistics or services should be directed to:

Corporations and Labour Unions Returns Act
(CALURA) Sub-division,
Business Finance Division,

Statistics Canada, Ottawa, K1A 0T6 (Telephone: 995-9804) or to the Statistics Canada reference centre in:

St. John's	(772-4073)	Sturgeon Falls	(753-4888)
Halifax	(426-5331)	Winnipeg	(949-4020)
Montréal	(283-5725)	Regina	(359-5405)
Ottawa	(992-4734)	Edmonton	(420-3027)
Toronto	(966-6586)	Vancouver	(666-3691)

Toll-free access is provided in all provinces and territories, **for users who reside outside the local dialing area** of any of the regional reference centres.

How to Order Publications

This and other Statistics Canada publications may be purchased from local authorized agents and other community bookstores, through the local Statistics Canada offices, or by mail order to Publication Sales and Services, Statistics Canada, Ottawa, K1A 0T6.

Des données sous plusieurs formes . . .

Statistique Canada diffuse les données sous formes diverses. Outre les publications, des totalisations habituelles et spéciales sont offertes sur imprimés d'ordinateur, sur microfiches et microfilms et sur bandes magnétiques. Des cartes et d'autres documents de référence géographiques sont disponibles pour certaines sortes de données. L'accès direct à des données agrégées est possible par le truchement de CANSIM, la base de données ordiolingue et le système d'extraction de Statistique Canada.

Comment obtenir d'autres renseignements

Toutes demandes de renseignements au sujet de cette publication ou de statistiques et services connexes doivent être adressées à:

Sous-division des déclarations des corporations et des
syndicats ouvriers (CALURA),
Division des finances des entreprises,

Statistique Canada, Ottawa, K1A 0T6 (téléphone: 995-9804)
ou au centre de consultation de Statistique Canada à:

St. John's	(772-4073)	Sturgeon Falls	(753-4888)

Introduction

The ownership of the Corporate sector of the Canadian economy continually changes. Significant stock purchases, mergers and takeovers all affect the concentration of corporate power, the degree of foreign control and the structure of industrial society. In response to these developments there are numerous ownership information requests from a broad spectrum of Canadian society.

To meet this information need, this latest *Inter-Corporate Ownership* (ICO) publication has been prepared. It is a reliable index of who owns and/or controls whom in Canada. It is intended to serve as an essential reference tool for corporate executives, bankers, financiers, marketing managers, investors, researchers and the general public, all of whom desire the latest detailed information on the corporate structure of Canadian society.

The ownership information contained in this directory is a final 1982 version. It is based primarily upon non-confidential returns filed by Canadian corporations under the Corporations and Labour Unions Returns Act (CALURA). Many other public sources have been used to supplement CALURA returns. For example, using such international publications as *Moody's*, *Jane's* and *Who Owns Whom*, information on ultimate foreign parent corporations has been obtained. In many cases, this research has resulted in expanded enterprise structures, spanning several countries and leading to new insights into the organization of multi-national enterprises operating in Canada.

Wherever possible, our researchers have searched and carefully examined the existence of any options, insider holdings, convertible shares and interlocking directorates which could affect the control of a corporation. In a number of cases, reported nominees have been replaced by true owners and information on certain family controlled corporations is included.

The ICO is divided into three main sections: a Corporate Ownership Section, a Non-Resident Ownership Section, and an Index. The Corporate Ownership Section shows the portion of voting rights of a corporation owned or held by another corporate body or group of related individuals. All holdings of an enterprise are shown in one location, and they are presented in an easy-to-read "tiered" fashion - each successive layer of held corporations is indented.

A specific country of control has been ascribed to each corporation. Each active Canadian corporation is also given a Standard Industrial Classification (SIC), and the

Introduction

Les liens de parenté entre sociétés de l'économie canadienne changent constamment. Les achats de gros volumes d'actions, les fusions et les mainmises ont des incidences sur la concentration du pouvoir des sociétés, l'importance du contrôle étranger et la structure des sociétés industrielles. Tous ces changements suscitent de la part de Canadiens de tous les milieux un grand nombre de demandes de renseignements sur la propriété des sociétés.

Nous avons produit cette nouvelle version de la publication *Liens de parenté entre corporations* pour répondre à ces demandes. C'est un index fiable indiquant qui possède ou contrôle qui au Canada. Son but est de servir d'ouvrage essentiel de référence aux directeurs de sociétés, aux banquiers, aux financiers, aux responsables de mise en marché, aux investisseurs, aux chercheurs et au grand public, qui désirent tous des renseignements détaillés sur la structure des sociétés au Canada.

Le présent document se fonde essentiellement sur des renseignements valables pour 1982. Il est principalement basé sur des déclarations non confidentielles faites par les sociétés canadiennes en vertu de la Loi sur les déclarations des corporations et des syndicats ouvriers (CALURA), ainsi que sur de nombreuses autres sources publiques. Ainsi, on s'est servi de publications internationales, notamment *Moody's*, *Jane's* et *Who Owns Whom*, pour obtenir des renseignements sur les sociétés étrangères qui étaient les propriétaires ultimes. Dans bien des cas, cette recherche a fait ressortir des structures plus vastes, s'étendant dans divers pays, et a projeté de nouveaux éclairages sur l'organisation des multinationales en activité au Canada.

Dans la mesure du possible, nos chercheurs ont effectué des recherches poussées afin de trouver les options, les parts d'inités, les actions convertibles et les conseils d'administration liés susceptibles d'influencer le contrôle d'une société. En maintes occasions, ils ont remplacé les propriétaires figurant sur les registres par les propriétaires véritables. Enfin, ils ont trouvé des renseignements sur certaines sociétés familiales.

Le présent document est divisé en trois parties principales: la première porte sur les liens de parenté entre corporations, la deuxième, sur la propriété de non-résidents, et la troisième est un index. La première partie donne la proportion des droits de vote d'une société détenus par une autre société ou à un groupe de personnes apparentées, ou leur appartenant. Tous les avoirs d'une entreprise sont présentés au même endroit, par "échelons" afin d'en faciliter la consultation; ainsi chaque couche successive de sociétés détenues est mise en retrait.

On attribue un pays de contrôle à chaque société. On donne aussi à chaque société canadienne en activité un code CTI (Classification type des industries) et on indique la province où

province of its head office is noted. This presents a picture of enterprise activity in terms of horizontal and vertical integration, conglomeration and multi-national participation.

The Non-Resident Ownership Section shows the direct and ultimate degree of non resident ownership for each corporation. This statistic includes individual as well as corporate shareholders and is disaggregated for each foreign country.

Within each specific country of control corporations are listed alphabetically. In addition, the standard industrial classification and residence of head office are shown.

The last section is an index to the other two sections. It includes all foreign-controlled corporations (in boldface print), even those without inter-corporate ownership. It includes multiple references for corporations that appear on several pages.

Special Note

It is possible that information supplied to the CALURA Administration under the Act, or obtained from research sources, could be in error. Any inaccuracies brought to the attention of the authors will be corrected in a subsequent edition.

est établi le siège social. Cela donne une image des activités de l'entreprise en matière d'intégration horizontale et verticale, de présence de conglomerats et de participation multinationale.

La partie sur la propriété de non-résidents donne la répartition du degré d'appartenance directe et ultime par des non-résidents. Ces données comprennent tous les actionnaires (qu'il s'agisse de particuliers ou de sociétés) et sont ventilées selon chaque pays étranger.

Pour chaque pays de contrôle, les sociétés sont énumérées alphabétiquement. On indique aussi dans cette partie le code de la Classification type des industries et la résidence du siège social.

La dernière partie est un index des deux autres sections. Toutes les sociétés contrôlées à l'étranger y figurent en caractères gras, y compris celles qui n'ont aucun lien de parenté. L'index donne plusieurs renvois lorsqu'une société paraît sur plusieurs pages.

Note particulière

Il se peut que certains renseignements fournis à l'administration de CALURA en vertu de la Loi, ou obtenus au cours des recherches, soient erronés. Toute inexactitude signalée aux auteurs sera corrigée dans une prochaine édition.

HOW TO USE THE PUBLICATION

Assuming that the reader wishes to obtain information about a specific corporation, the Index Section, which reveals the location of the information, is described first.

The **Index Section** is an alphabetical listing of all the corporations and related groups contained in the Corporate Ownership Section or in the Non-Resident Ownership Section. All foreign-controlled corporations in Canada are included and are shown in bold-face print.

In sorting names for the index most articles, conjunctions and prepositions in both English and French, as well as punctuation, are ignored. Specifically, note that **THE DE HAVILLAND AIRCRAFT OF CANADA LIMITED** appears under **HAVILLAND**. In addition, the words **COMPAGNIE, CORPORATION, LIMITÉE**, and **LIMITED** are shortened and are found under **CIE, CORP, LTÉE** and **LTD** respectively. Names starting with a number appear at the beginning of the index.

If a corporation appears on more than one page, multiple listings for that corporation are provided. All page numbers are followed by either the letter "A" or "B", indicating the left-hand or right-hand column, respectively, of the noted page.

For further information, refer to the "Description" preceding the Index.

The **Corporate Ownership Section** shows the names of all holding and held companies, and the respective ownership percentages, in a "tiered" format, with each succeeding level indented. This section is organized by enterprise, and within each enterprise, all the ownership relationships to other corporations are shown.

Each line in the Corporate Ownership Section shows, for a specific corporation (the column headings are shown in brackets):

its country of control (CTL),

The Standard Industrial Classification (SIC),

the country of residence or province of its head office (RES),

the percentage of voting rights held (%) by the immediately preceding upper-level corporation (with a level number decreased by one),

a comment (C), and

the level number (LEV),

its name (CORPORATION NAME),

For each enterprise, the name of the parent corporation is shown in boldface print, and has a level number (LEV) of "01". If there are any other corporations that hold an investment in the enterprise parent, they are identified on separate lines preceding the "01" line.

UTILISATION DE LA PUBLICATION

Comme la plupart de nos lecteurs désirent obtenir des renseignements sur une société particulière, nous décrivons d'abord l'index, qui indique où se trouvent ces renseignements.

L'**index** est une liste alphabétique de toutes les sociétés et de tous les groupes apparentés qui figurent dans la partie sur les liens de parenté entre corporations ou dans celle sur la propriété de non-résidents. Toutes les sociétés qui sont contrôlées à l'étranger et qui font affaire au Canada figurent en caractères gras à l'index.

Dans l'ordre des noms, nous n'avons pas tenu compte de la plupart des articles, conjunctions et prépositions, tant en français qu'en anglais, ni de la ponctuation. Par exemple **THE DE HAVILLAND AIRCRAFT OF CANADA LIMITED** figure sous **HAVILLAND**. Les mots **COMPAGNIE, CORPORATION, LIMITÉE** et **LIMITED** sont abrégés respectivement par **CIE, CORP, LTÉE** et **LTD**. Les noms commençant par un chiffre viennent au début de l'index.

Si une société figure sur plus d'une page, l'index donne plusieurs renvois. Tous les numéros de page sont suivis de la lettre "A" ou "B", qui représentent respectivement la colonne de gauche et la colonne de droite de la page mentionnée.

Pour plus de renseignements, consultez la "Description" qui précède l'index.

La **partie sur les liens de parenté entre corporations** donne le nom de toutes les sociétés actionnaires ou détenues et les pourcentages correspondants des droits de vote détenus. Les sociétés sont présentées par échelons, et chaque échelon suivant est mis en retrait. Cette partie est organisée par entreprise et montre tous les liens de parenté de chaque entreprise avec les autres sociétés.

Chaque ligne de cette partie contient les renseignements suivants pour une société donnée (les en-têtes des colonnes sont entre parenthèses):

le pays de contrôle (CTL),

la classification type des industries (CTI),

le pays de résidence ou la province où est situé le siège social (RES),

le pourcentage des droits de vote détenus (%) par la société qui figure à l'échelon immédiatement au-dessus (dont le numéro d'échelon est inférieur d'une unité),

un commentaire (C),

le niveau (NIV),

le nom (NOM DE LA CORPORATION),

Le nom de la société mère de chaque entreprise figure en caractères gras et possède le niveau (NIV) "01". Si d'autres sociétés détiennent des actions dans la société mère, on les retrouve sur des lignes distinctes qui précèdent la ligne "01". Ensuite, tous les liens de parenté avec d'autres sociétés sont

Next all the ownership relationships to other corporations are presented in a "tiered" format - each successive layer of owned corporations is indented further, and has a level number increased by one. Some of these owned corporations may be members of another enterprise, and they are identified by a "D" in the comment column.

In this section, if the country of residence is Canada, then a specific province is shown. Foreign branches show a foreign country as their residence.

The country and province mnemonics, SIC codes, comments, and other information are provided on the buff-coloured pages preceding the section.

The **Non-Resident Ownership Section** shows the portion of each corporation's voting rights that are held in any foreign country, both directly (D%) by corporations or individuals residing in that country, as well as ultimately (U%) through intermediate holding corporations. In addition, where more than one foreign country is involved, the total direct foreign ownership as well as the ultimate degree of non-resident ownership is shown. Note, corporations having a total of direct foreign ownership and ultimate non-resident ownership which is less than the 5% are not shown. For those corporations listed, individual country values which are less than 2% are not shown.

Within the Non-Resident Ownership Section, corporations are grouped alphabetically for each country of control. For each corporation its Standard Industrial Classification (SIC), the country of residence or the province of its head office (RES) is shown. In the Non-Resident Ownership Section, if a corporation is active in Canada (even if it is a foreign branch) then the Canadian province is shown. The country and province mnemonics and SIC codes are defined on the buff-coloured pages prior to the Corporate Ownership Section.

présentés par échelon et chaque couche successive de sociétés détenues est mise en retrait et possède un numéro d'échelon augmenté d'une unité. Certaines de ces sociétés détenues peuvent faire partie d'une autre entreprise; elles sont alors marquées par un "D" dans la colonne des commentaires.

Dans cette partie, on indique la province lorsque le pays de résidence est le Canada. La résidence des succursales étrangères est le pays étranger.

Les abréviations mnémoniques des pays et des provinces, les codes CTI, les commentaires et les autres renseignements figurent aux pages de couleur chamois qui précèdent cette partie.

La partie sur la propriété de non-résidents donne la proportion des droits de vote de chaque société détenus dans un pays étranger, que ces droits soient détenus directement (D%) par des sociétés ou des particuliers qui résident dans ce pays, ou de façon ultime (U%) par le biais de sociétés actionnaires intermédiaires. En outre, lorsqu'il y a plus d'un pays étranger propriétaire, on indique tous les liens directs de parenté et le degré de propriété ultime de non-résidents. Notons que les sociétés ayant un total de moins de 5% de lien direct de parenté et de propriété ultime à des non-résidents ne sont pas indiquées. Pour ce qui est des sociétés inscrites, les montants individuels de propriété étrangère de moins de 2% ne sont pas indiqués.

Dans la partie sur la propriété de non-résidents, les sociétés sont groupées par ordre alphabétique pour chaque pays de contrôle. On indique le code CTI (Classification type des industries) de chaque sociétés, ainsi que le pays de résidence ou la province où est établi le siège social (RES). Dans la partie sur la propriété de non-résidents, on donne la province canadienne si la société fait affaire au Canada (même s'il s'agit d'une succursale étrangère). On explique les abréviations mnémoniques des pays et des provinces et les codes CTI dans les pages de couleur chamois qui précèdent la partie sur les liens de parenté entre corporations.

STATISTICAL NOTES AND DEFINITIONS

Coverage and Research

Corporations included in this report are principally those that are required to file a schedule of ownership information under the Corporations and Labour Unions Returns Act (CALURA). Under this Act Canadian corporations with assets greater than \$250,000 or sales greater than \$500,000 are required to file, although important segments of the corporate universe are exempted because they report under other federal acts or because they are agents of the Government of Canada, a province or a foreign country. Non-profit organizations established for the furtherance of religious or charitable purposes are also exempted. However, ownership information on exempted and small corporations has been included where volunteered or where found through other sources.

Research of international financial and ownership publications was undertaken to obtain true beneficial owners rather than nominees wherever possible. In addition, the data derived solely from the CALURA returns has occasionally proved insufficient to bring related corporations in Canada together into one enterprise because corporations are required only to report their first foreign parent. In many of these cases, the first foreign parents were traced back to an ultimate parent corporation. Sometimes this was one or two countries removed from the one reported. This research has also resulted in a more accurate assignment of country of control to the enterprise.

Under the Act, corporations are not required to report the names of individuals owning shares or the names of corporations holding less than 10% of any share class. In a select number of cases, where such information was deemed significant in revealing the extent of an enterprise, or in determining the control of a corporation, data on personal share holdings, or corporate holdings of less than 10%, was obtained and integrated with inter-corporate ownership information.

The research sources included:

Federal and Provincial Gazettes,

Foreign Investment Review Agency newsletters,

Consumer and Corporate Affairs merger register,

Moody's Manuals,

Jane's Major Companies of Europe,

Dun & Bradstreets' Who Owns Whom,

Financial Post Surveys,

Canadian Radio and Television Commission,

NOTES STATISTIQUES ET DÉFINITIONS

Champ d'observation et recherche

Les sociétés étudiées dans le présent rapport sont surtout celles qui doivent présenter des renseignements sur leur appartenance en vertu de la Loi sur les déclarations des corporations et des syndicats ouvriers (CALURA). Aux termes de cette loi, les sociétés canadiennes dont l'actif s'établit à plus de \$250,000 ou dont le chiffre d'affaires dépasse \$500,000 doivent déposer un rapport, mais des segments importants de l'univers des sociétés ne sont pas tenus de la faire, dans la mesure où ils présentent des déclarations en vertu d'autres lois fédérales ou qu'ils sont des agents de l'administration du Canada, d'une province ou d'un pays étranger. Les organisations sans but lucratif établies à des fins religieuses ou charitables ne sont également pas obligées de déposer un rapport. Toutefois, des renseignements sur l'appartenance des petites sociétés et des sociétés exemptes de cette obligation ont été incorporés lorsque celles-ci les fournissent ou lorsqu'ils ont été obtenus par d'autres moyens.

Dans la mesure du possible, on a dépouillé les publications financières et les répertoires internationaux pour trouver les propriétaires véritables. En outre, les déclarations CALURA sont parfois insuffisantes pour regrouper en une seule entreprise des sociétés canadiennes ayant des liens de parenté, dans la mesure où les sociétés sont tenues d'indiquer seulement leur société mère immédiate à l'étranger. Dans de nombreux cas, nous avons établis une liaison avec une société mère ultime établie dans un (ou deux) pays autre(s) que le pays de contrôle déclaré. Ces recherches nous ont également permis de déterminer avec plus d'exactitude le pays de contrôle des entreprises.

Aux termes de la Loi, les sociétés ne sont pas tenues de déclarer le nom des particuliers qui détiennent des actions ou le nom des sociétés qui possèdent moins de 10% d'actions de n'importe quelle classe. Nous avons jugé, parfois, que ce renseignement était utile pour déterminer l'étendue d'une entreprise ou le contrôle d'une société; nous avons alors obtenu des données sur les actions détenues par des particuliers ou sur les avoirs de moins de 10% de sociétés et les avons intégrées aux renseignements sur les liens de parenté entre sociétés.

Les sources de la recherche comprennent:

le journal officiel des administrations fédérale et provinciales,

les bulletins d'information de l'Agence d'examen de l'investissement étranger,

le registre des fusions de Consommation et Corporations,

les publications de Moody's,

"Major Companies of Europe", publié par Jane's,

"Who Owns Whom" de Dun & Bradstreet,

les études de différents secteurs de l'économie publiées par le Financial Post,

les publications de Standard & Poor,

le Conseil de la radiodiffusion et des télécommunications canadiennes,

Department of Insurance,
Toronto Stock Exchange,
Ontario Securities Commission.

In addition, of continuous use, were many business publications (such as, Canadian Business, Business Week, and Fortune), the daily press, and individual corporation's Annual Reports.

Control

The primary determinant of control of a corporation by another corporation or individuals, is the ownership of the majority of the corporation's voting rights. However, in some of these cases where the ownership of voting rights is sufficient to assign control, research is undertaken to determine if options or key privately held shares exist. The findings are integrated into the control assignment process where applicable. In addition, if a majority of the board of directors are interlocking with related holding companies, then control is assigned. This is indicated by "A" in the comment column of the Corporate Ownership Section.

The following examples illustrate the concept of control of a corporation based on the majority ownership of its voting rights. Each lettered circle represents a corporation and an arrow indicates its ownership by another corporation.

In example a), corporation A owns 60% of corporation B's voting rights, and so A controls B. Similarly, corporation B controls C, and hence A controls C. The control of B by A is direct control. The control of C by A is indirect control.

Example a Exemple a

In example b), A controls all other corporations. From the logic of the previous example A controls B and C directly and D and E indirectly. As the sum of the voting rights of F by D and E is 80% then A controls F. This is cumulative indirect control.

There are numerous methods of control generally outside the scope of this publication. For example, where the majority of a corporation's voting rights are widely diffused, a single relatively small block of shares may provide effective control. Furthermore, franchise and licencing agreements and marketing arrangements and sales contracts may also prove effective in controlling a corporation. In addition, a variety of these methods may be employed together to obtain effective control where there exists no majority shareholders. Comprehensive

le département des Assurances
la Bourse de Toronto,
la Commission des valeurs mobilières de l'Ontario.

En outre, nous nous sommes abondamment servi de nombreuses publications spécialisées (notamment Canadian Business, Business Week et Fortune), de la presse quotidienne et des rapports annuels de chaque société.

Contrôle

Le critère principal de détermination du contrôle d'une société par une autre société ou par des particuliers est la possession de la majorité des droits de vote de cette société. Toutefois, ce critère est parfois insuffisant, et on cherche à savoir s'il existe des options ou encore si des particuliers détiennent des blocs d'actions importants. Ces recherches sont, le cas échéant, utilisées pour déterminer le contrôle. En outre, si la majorité des membres du conseil d'administration siègent aussi au conseil de sociétés actionnaires apparentées, cela peut indiquer un contrôle, qui est indiqué par un "A" à la colonne des commentaires dans la partie sur les liens de parenté entre corporations.

Les exemples suivants illustrent la notion de contrôle d'une société fondée sur la possession majoritaire des droits de vote. Chaque lettre encerclée représente une société et l'appartenance à une autre entreprise est indiquée par une flèche.

Dans l'exemple a), la société A détient 60% des droits de vote de la société B, et par conséquent A contrôle B. De la même façon, la société B contrôle C; donc, A contrôle C. Le contrôle de B par A est un contrôle direct, tandis que celui de C par A est un contrôle indirect.

Dans l'exemple b), A contrôle toutes les autres sociétés. Selon le même principe qu'à l'exemple précédent, A contrôle B et C directement et D et E indirectement. Comme la somme des droits de vote de F détenus par D et E égale 80%, A contrôle F. C'est ce que l'on appelle le contrôle indirect cumulatif.

Il existe de nombreuses méthodes de contrôle qui ne sont pas abordées dans la présente publication. Lorsque la majorité des droits de vote d'une société sont éparpillés, un bloc d'actions relativement petit peut conférer le contrôle effectif d'une société. En outre, les accords de concession ou de licence, les ententes de mises en marché et les contrats de vente peuvent aussi servir à contrôler une société. Il est même possible de recourir à plusieurs de ces méthodes pour exercer un contrôle réel lorsqu'il n'existe pas d'actionnaire majoritaire. On n'a pas encore mis au point de règles détaillées et cohérentes pour tenir compte de ces

Example b
Exemple b

and consistent procedures for incorporating these other methods of control have not been devised. However, if control is acknowledged by a corporation then the acknowledgment is deemed sufficient for the purposes of this publication.

Care should be taken in using the word "controlled". In many cases where control is said to exist corporations may still function with considerable autonomy in their financial, marketing, or operational activities. Control should be used in the context of a potential that exists and is exercised within the framework of a corporate industrial society with highly varied management practices.

Enterprise

An enterprise has been defined as the collection of all corporations under a single controlling interest, which in turn is called the enterprise head or parent. Controlled corporations are called subsidiaries. A multi-corporation enterprise contains one or more subsidiaries. A corporation that is not controlled by another corporation and that does not control another corporation is called a single-corporation enterprise.

The following example illustrates these concepts.

In this example A and B form a multi-corporation enterprise with enterprise head A. C is not controlled by A, and is a single-corporation enterprise.

autres méthodes de contrôle. Toutefois, si une société, reconnaît qu'elle contrôle une autre, on juge que c'est suffisant aux fins de la présente publication.

Il faut employer le terme "contrôle" avec prudence. Souvent, même lorsqu'il y a contrôle, les sociétés peuvent conserver une marge d'autonomie considérable en ce qui concerne les finances, la mise en marché ou l'exploitation. Le contrôle représente avant tout un potentiel, qui est exercé dans le cadre de structures industrielles caractérisées par une grande diversité de méthodes de gestion.

Enterprise

L'entreprise a été définie comme l'ensemble de toutes les sociétés sous le contrôle d'une seule société, que l'on appelle tête d'entreprise ou société mère. Les sociétés contrôlées sont appelées filiales. Une entreprise à sociétés multiples contient une ou plusieurs filiales. Une société qui n'est pas contrôlée par une autre et qui n'en contrôle pas d'autres est une entreprise à société unique.

L'exemple suivant illustre ces notions.

Dans cet exemple, A et B forment une entreprise à sociétés multiples dont A est la tête d'entreprise. C n'est pas contrôlée par A et est une entreprise à société unique.

Example c
Exemple c

For each enterprise in the Corporate Ownership Section, all ownership emanating from that enterprise is shown including investments in other enterprises. Referring back to the preceding example, the enterprise parent would be shown as level "01", the 60% link to corporation B would be shown as level "02", and the 40% link to C would be shown as level "03" with a comment of "D" (unless control of C by A has been assigned for reasons other than voting rights, in which case the comment would be "A"). In addition, non-controlling investments in an enterprise parent are identified by "INV".

Country of Control

Each corporation included in the ICO is assigned a "country of control". This is the basis for the analysis of the extent and impact of foreign control within the Canadian economy, as contained in the CALURA Part I, *Corporations, Annual Report to Parliament*, catalogue 61-210. However, that report treats all corporations below CALURA size (i.e. assets less than \$250,000 and sales less than \$500,000) as unclassified, even though they may be included in the ICO as foreign-controlled.

Generally, a corporation is considered to be foreign-controlled if a majority of its voting rights are held in foreign countries, or are held by one or more Canadian corporations that are themselves foreign-controlled. In the case of a multi-corporation enterprise, it is the enterprise head (or parent) that is considered first and each subsidiary within the enterprise is assigned the same country of control as its enterprise parent (see Example 1). If the enterprise head is a Canadian-resident corporation, the country of control is ascribed to that country in which the majority of the voting rights are held by both individuals and corporations. In those cases where the holdings of over 50% of the voting rights are distributed among non-associated shareholders in two or more foreign countries, foreign-control unspecified is assigned (see Example 5). A parent corporation whose voting rights are owned equally by a Canadian-controlled and a foreign-controlled corporation is given a foreign control code (see Example 3). If two foreign-controlled corporations own the largest and equal amounts of the voting rights of a Canadian corporation, the United States code takes precedence, followed by the United Kingdom and then the remaining European countries (see Example 4).

Strict adherence to these conventions can lead to a company's reclassification as a result of relatively minor stock transactions when the non-resident ownership of the outstanding voting rights of the company is close to 50%. In order to avoid such swings, corporations are reclassified only when changes in ownership of the voting rights are substantial or appear to alter the potential or effective control over the management of the company.

In most cases of foreign control, the country of control classification is based on tracing ownership links to the

La partie sur les liens de parenté entre corporations donne toutes les participations majoritaires d'une entreprise dans une autre, ainsi que ses autres participations. Si l'on se reporte à l'exemple précédent, l'entreprise mère figure à l'échelon "01", le lien de 60% avec la société B, à l'échelon "02", et le lien de 40% avec la société C, à l'échelon "03", suivi du commentaire "D" (à moins que le contrôle de C n'ait été attribué à A en vertu d'autres critères que les droits de vote, auquel cas on aurait un "A"). En outre, les participations dans une entreprise mère qui n'entraînent pas de contrôle sont marquées par "INV".

Pays de contrôle

On attribue un "pays de contrôle" à chaque société étudiée dans le présent document. Ce renseignement constitue le fondement de l'analyse de l'étendue et de l'incidence du contrôle étranger au sein de l'économie canadienne, que l'on retrouve dans "Loi sur les déclarations des corporations et des syndicats ouvriers", Partie I, *Corporations, rapport annuel déposé au Parlement*, n° 61-210 au catalogue. Toutefois, ce rapport traite toutes les sociétés ne répondant pas aux critères de CALURA (actif de moins de \$250,000 ou chiffre d'affaires inférieur à \$500,000) comme non classées, même si on les classe ici parmi les sociétés contrôlées à l'étranger.

De manière générale, une société est dite sous contrôle extérieur si la majorité de ses droits de vote sont détenus à l'étranger ou appartiennent à une ou plusieurs sociétés canadiennes elles-mêmes contrôlées à l'étranger. Dans le cas des entreprises à sociétés multiples, on commence par établir le pays de contrôle de la tête d'entreprise ou de la société mère, que l'on attribue ensuite à chaque filiale de l'entreprise (voir exemple 1). Si la tête d'entreprise est une société résidant au Canada, le contrôle en est attribué au pays où la majorité des droits de vote sont détenus par des particuliers ou des sociétés. Dans les cas où plus de 50% des droits de vote sont répartis entre des actionnaires indépendants résidant dans plus d'un pays étranger, le contrôle est considéré comme étranger non spécifié (voir exemple 5). Une société mère dont les droits de vote appartiennent dans une proportion égale à une société contrôlée au Canada et à une société sous contrôle étranger reçoit le code de contrôle étranger (voir exemple 3). Si deux sociétés sous contrôle étranger possèdent une proportion égale de la majorité des droits de vote d'une société canadienne, les États-Unis ont la priorité, suivis du Royaume-Uni, puis des autres pays d'Europe (voir exemple 4).

La stricte observation des conventions précédentes peut conduire au reclassement d'une société par suite de petites transactions d'actions lorsque les droits de vote en circulation appartiennent à des non-résidents dans une proportion de près de 50%. Pour éviter cela, on reclasse les sociétés seulement lorsqu'une part appréciable des droits de vote change de mains ou lorsque le contrôle réel ou éventuel de la direction de la société en est effectivement modifié.

Dans la plupart des cas de contrôle étranger, on détermine le pays de contrôle en remontant jusqu'à la première société mère

first parent corporation which is a resident of a foreign country. However, it is at times possible to determine that the first foreign parent itself, is in fact controlled by another foreign corporation which may reside in a different foreign country. In such instances control is assigned to the country of the ultimate parent.

The following examples have been prepared to illustrate the assignment of a country of control for a corporation. Each lettered circle represents a corporation and an arrow indicates its ownership by another corporation or individuals (e.g., A 60% B indicates that corporation A owns 60% of the corporation B's voting rights).

In Example 1, all corporations are assigned a United States control code.

In Example 2, corporations E and G are assigned Canadian control. All other corporations are assigned United Kingdom control.

In Example 3, corporation B is assigned Japanese control.

In Example 4, corporation C is considered United States controlled.

qui réside dans un pays étranger. Cependant, on découvre parfois que la première société mère étrangère est elle-même contrôlée par une autre société d'un autre pays. Le contrôle est alors attribué au pays de la société qui est propriétaire ultime.

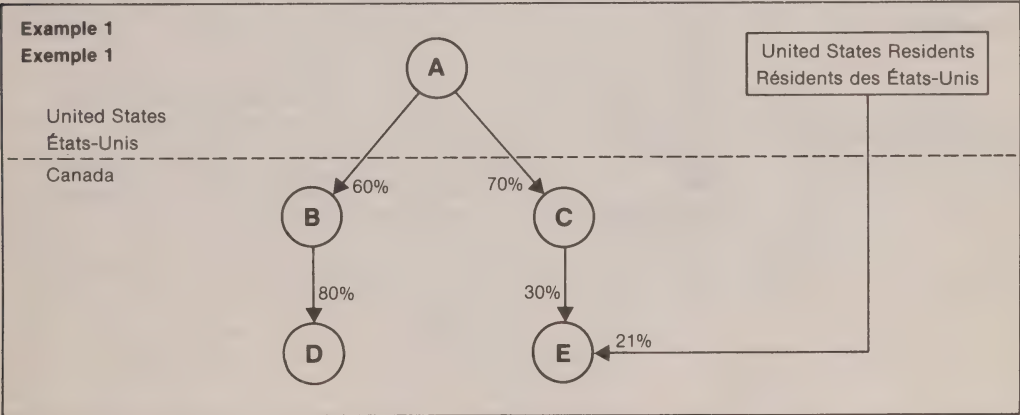

Voici des exemples de la façon d'attribuer un pays de contrôle à une corporation. Chaque lettre encadrée représente une société et l'appartenance à une autre entreprise ou à des particuliers est indiquée par une flèche (par exemple, A 60% B signifie que la société A détenait 60% des droits de vote de la société B).

Dans l'exemple 1, toutes les sociétés reçoivent le code de contrôle des États-Unis.

Dans l'exemple 2, les sociétés E et G sont contrôlées au Canada. Toutes les autres sont contrôlées au Royaume-Uni.

Dans l'exemple 3, la société B est contrôlée au Japon.

Dans l'exemple 4, on considère que la société C est sous contrôle américain.

Corporation B is considered "foreign-controlled unspecified" as the majority of voting rights are owned outside Canada and no one country can be identified as having controlling interest.

Percentage Distribution of Ownership by Country

For each corporation, two different statistics on the percentage distribution of ownership by foreign countries have been produced: direct ownership (D%), and ultimate degree of ownership (U%). Where two or more foreign countries are involved, the total direct foreign

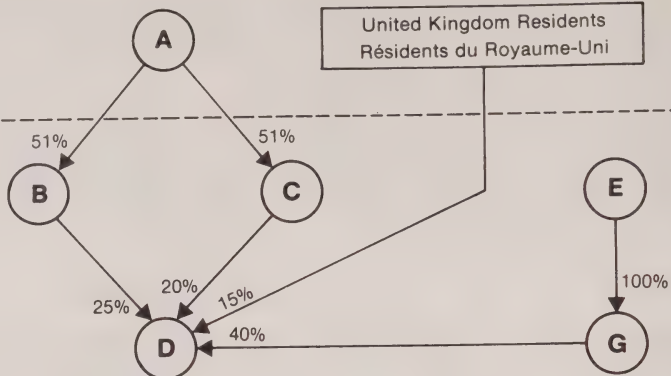

On considère que la société B est sous "contrôle étranger non spécifié" puisque la majorité des droits de vote sont détenus à l'extérieur du Canada et qu'aucun pays ne détient des intérêts majoritaires.

Répartition en pourcentage de la propriété selon le pays

On a produit pour chaque société deux statistiques différentes relatives à la répartition en pourcentage de la propriété par pays étranger: la propriété ultime (U%). Lorsqu'il y a plus d'un pays étranger propriétaire, on donne aussi la propriété étrangère directe totale et la propriété étrangère ultime totale. On appelle

Example 2
Exemple 2

United Kingdom
Royaume-Uni
Canada

Example 3

Japan
Japon
Canada

Example 4.
Exemple 4.

United States
États-Unis

Example 5
Exemple 5

ownership and the total ultimate foreign ownership are also provided. The latter is also referred to as the ultimate degree of non-resident ownership (UNRO).

The **direct foreign ownership** statistic (D%) is defined as the percentage of voting rights of a corporation that are directly held by residents of a specific foreign country. Residents include both individuals and corporations.

aussi cette dernière le degré de "propriété ultime de non-résidents" (PUNR).

La statistique de la **propriété étrangère directe** (D%) est le pourcentage des droits de vote d'une société qui sont directement détenus par des résidents d'un pays étranger donné. Par résidents on entend à la fois les particuliers et les sociétés.

Consider the following example:

Examinons l'exemple suivant:

Example 6
Exemple 6

For the Canadian resident corporation C, the direct ownership by the United States is 45% (30% by individuals and 15% from company A), the direct ownership by Sweden is 40%, and the total direct foreign ownership is 85%. The remaining 15% of the voting rights of C are held in Canada, 10% by corporation D and the remaining 5% (not shown) by individual Canadian residents.

La société C établie au Canada est la propriété directe de résidents des États-Unis dans une mesure de 45% (30% appartenant à des particuliers et 15% à la société A) et de résidents de la Suède dans une proportion de 40%. La propriété étrangère directe est de 85% au total. Les droits de vote restants (15%) sont détenus au Canada: 10% appartiennent à la société D et 5% (non illustrés), à des particuliers résidant au Canada.

La statistique de **propriété étrangère ultime** (U%) indique le pourcentage des droits de vote d'une société qui sont la propriété ultime de particuliers résidant dans un pays étranger donné, compte tenu du fait que ceux-ci possèdent des sociétés intermédiaires.

Examinons l'exemple suivant:

De toute évidence, la société B est à 80% propriété ultime de résidents des États-Unis. La société A appartient directement à des résidents américains dans une proportion de 30% et appartient en partie et de façon indirecte à la société B. Le degré d'appartenance ultime de A à des résidents des États-Unis est calculé à l'aide de la formule suivante:

Corporation A, thus, is 70% ultimately United States owned.

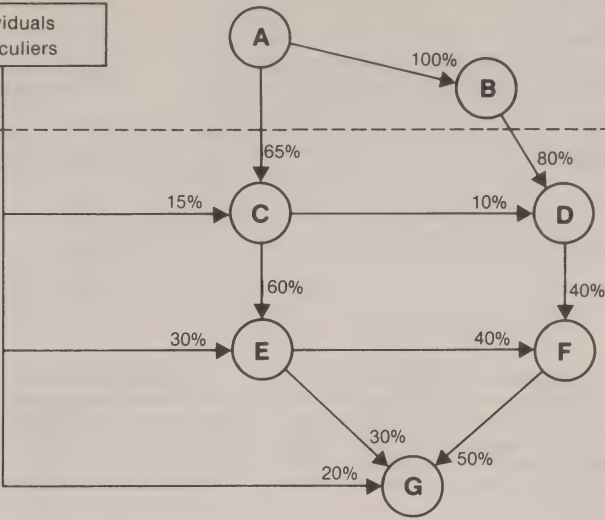

La société A est donc propriété ultime de résidents américains dans une proportion de 70%.

Example 8
Exemple 8

A Foreign Country
Un pays étranger

Canada

Individuals
Particuliers

The above example has been structured so that readers may see that a system of equations can be structured and solved to calculate ultimate ownership by a specific foreign country. (Note that residual ownership of corporations is not shown, and is assumed to be by individual residents of the country in which the corporation is located - for example, the other 20% of F is assumed to be held by individual Canadians, and 100% of A is assumed to be held by residents of the foreign country).

L'exemple ci-dessus devrait permettre au lecteur de comprendre que l'on peut établir et résoudre un système d'équations afin de calculer la propriété ultime de résidents d'un pays étranger donné. (Veuillez noter que l'on ne mentionne pas qui détient les droits de vote restants; on suppose que ce sont des particuliers résidant dans le pays où la société fait affaire. Ainsi, on suppose que les 20% restants de F sont détenus par des particuliers canadiens et que la totalité de la société A appartient à des résidents du pays étranger).

		Individuals		Corporations
		Particuliers		Sociétés
U_A	=	1.00	+	0
U_B	=	0	+	$1.00(U_A)$
U_C	=	.15	+	$.65(U_A)$
U_D	=	0	+	$.10(U_C) + .80(U_B)$
U_E	=	.30	+	$.60(U_C)$
U_F	=	0	+	$.40(U_E) + .40(U_D)$
U_G	=	.20	+	$.30(U_E) + .50(U_F)$

Solving the above equations, we find:

U_A	=	100%
U_B	=	100%
U_C	=	80%
U_D	=	88%
U_E	=	78%
U_F	=	66.4%
U_G	=	76.6%

There are some subtleties in this methodology. First, a distinction does exist between ultimate ownership and foreign control. In the overwhelming majority of cases, high ultimate non-resident ownership and foreign control are seen together. However, a contrast between these two measures is possible as demonstrated in the following two examples.

En résolvant les équations ci-dessus, on obtient:

U_A	=	100%
U_B	=	100%
U_C	=	80%
U_D	=	88%
U_E	=	78%
U_F	=	66.4%
U_G	=	76.6%

Cette méthodologie comporte certaines distinctions subtiles. Tout d'abord, on distingue la propriété ultime du contrôle étranger. Dans la très grande majorité des cas, un degré élevé de propriété étrangère ultime est indissociable d'un contrôle étranger important. Toutefois, il est possible de faire ressortir la différence entre ces deux mesures, comme le démontrent les deux exemples suivants.

Example 9

Exemple 9

A Foreign Country

Un pays étranger

Canada

In the above example corporation D is foreign controlled with ultimate non-resident ownership of only 21.6%.

Dans l'exemple ci-dessus, la société D est contrôlée de l'extérieur alors même que la propriété ultime des non-résidents n'est que de 21.6%.

Example 10

Exemple 10

A Foreign Country

Un pays étranger

Canada

In the above example corporation F is Canadian controlled with ultimate non-resident ownership of 72.4%.

Calculating ultimate non-resident ownership with a loop may produce an unexpected result as in the following example.

Dans l'exemple ci-dessus, la société F est contrôlée au Canada même si sont pourcentage de propriété étrangère ultime s'élève à 72.4%.

On peut obtenir des résultats surprenants si l'on calcule la propriété étrangère ultime à l'aide d'une boucle, comme le montre l'exemple ci-dessous.

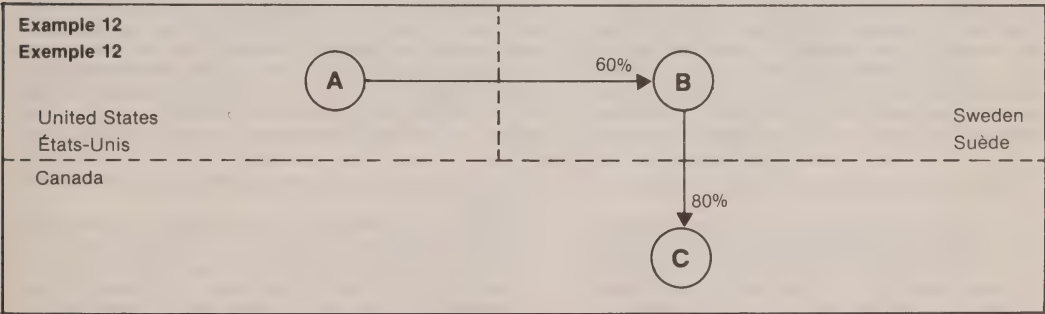

Though there is direct foreign ownership of only 20%, the ultimate non-resident ownership is 100% for both A and B.

Bien que la propriété étrangère directe n'atteigne que 20%, la propriété étrangère est de 100% pour les sociétés A et B.

Another distinction occurs when intermediate holding companies are in different foreign countries:

Une autre distinction se dégage lorsque les sociétés actionnaires intermédiaires sont situées dans des pays étrangers différents:

Here the United States-controlled corporation C has a direct ownership by Sweden of 80%, and no direct ownership by the United States; however, C is 32% ultimately owned by Sweden and 48% ultimately owned by the United States.

Dans cet exemple, la société C contrôlée aux États-Unis est la propriété directe de résidents de la Suède dans une proportion de 80%, sans propriété directe de la part des États-Unis. Toutefois, C est la propriété ultime de résidents suédois dans une proportion de 32% et de résidents américains dans une proportion de 48%.

Industrial Classification

The industrial classification of corporations is based on the 1960 Standard Industrial Classification Manual.¹

When a corporation is engaged in only one kind of industrial activity, industrial classification is straightforward. However problems can arise when a corporation is active in more than one kind of classifiable industrial activity. This usually occurs when a corporation operates more than one establishment. The establishment, typically a factory, mine, store or a similar unit is defined for statistical purposes, as the smallest separate operating entity capable of reporting all elements of basic industrial data which permit the calculation of "census value added"² or its equivalent. Corporations with several establishments are assigned to the industry that accounts for the largest share of the "census value added" or its equivalent. Inevitably, this procedure distorts the picture of the industrial activity of a corporation.

Large corporations are assigned consistently to the same industry, regardless of observed changes in their nature of business, unless such changes are of considerable importance and are more than of a transitory nature. This imposition of consistency does not in any way alleviate the distortions that will occur when a multi-activity corporation must be assigned to one industry.

The Business Finance Division has made a number of important departures from the conventions adopted in the Standard Industrial Classification Manual for the petroleum and natural gas industries, the non-ferrous metal mining, smelting and refining industries and the financial industries. The activities of integrated corporations in the oil and natural gas industries may embrace two or more combinations of either extraction, refining, transportation, wholesaling or retailing. All integrated firms that have activities in petroleum refining (SIC 365) are classified to that industry. All other petroleum or natural gas related firms are classified to the industry that contributes the greatest census value added. A similar departure has been taken in the case of non-ferrous metal mining, smelting and refining industries. Integrated

Classification type des industries

La classification des sociétés par activité économique est fondée sur la classification type des industries de 1960.¹

Il est simple de classer une société lorsque celle-ci se consacre à un genre d'activité bien précis. Toutefois, des problèmes peuvent surgir lorsqu'une société exerce ses activités dans plus d'un secteur. Cela se produit habituellement lorsqu'une société exploite plus d'un établissement. L'établissement (usine, mine, magasin ou toute unité semblable) est défini, aux fins statistiques, comme la plus petite unité d'exploitation distincte en mesure de déclarer tous les éléments de la statistique des activités économiques qui permettent de calculer la "valeur ajoutée recensée"² ou son équivalent. On classe les sociétés ayant plusieurs établissements dans l'activité économique qui est à l'origine de la majeure partie de "la valeur ajoutée recensée" ou de son équivalent. Ce procédé fausse inévitablement l'image que l'on donne de l'activité de la société.

On classe toujours les grandes sociétés dans la même catégorie économique, sans tenir compte de modifications dans la nature de l'entreprise, à moins que ces modifications ne soient très importantes ou qu'elles ne s'avèrent permanentes. Cette règle d'uniformité ne corrige pas pour autant les déséquilibres qui se produisent lorsqu'il faut attribuer une catégorie économique à une société exerçant diverses activités.

La Division des finances des entreprises s'est sensiblement écartée à plusieurs reprises de conventions établies dans le Manuel de la classification type des industries dans les secteurs suivant: le pétrole et le gaz naturel, l'extraction, la fonte et l'affinage des métaux non ferreux et les finances. Les sociétés intégrées du secteur du pétrole et du gaz naturel peuvent exercer deux ou plusieurs activités dans le domaine de l'extraction, du raffinage, du transport et du commerce (gros et détail). Toutes les entreprises intégrées qui font le raffinage du pétrole (CTI 365) sont classées dans cette activité, et toutes les autres entreprises dont l'activité se rapporte au pétrole ou au gaz naturel sont classées dans l'industrie où la valeur ajoutée recensée est la plus grande. La Division a procédé de la même manière dans le cas de l'extraction, de la fonte et de l'affinage des métaux non ferreux. Les sociétés intégrées ont été incorporées au secteur

¹ *Standard Industrial Classification Manual, Statistics Canada (Catalogue 12-502).*

² "Census value added" is a concept developed from the Census of Manufacturers as a measure of output applied to an establishment or to an industry. It is obtained from the value of gross output in a period, the value of material used, the cost of light, heat and power, the cost of goods purchased for re-sale, and some service expenses commonly incurred at the establishment level. Gross output may be measured as sales or shipments of all goods produced or purchased for re-sale or production. It includes revenues from custom work, sale of electricity and the value of fixed assets produced by their employees for their own use. Approximate equivalences in some other industries are: In trade - "Mark up on sales" which is the difference between sales and the purchase of goods sold in a period. In construction - The difference between billings, i.e. the value of work done or put in place, in a period and the cost of materials and supplies used and payments made or due to sub-contractors. In service - The difference between operating revenue received or due in a period and the cost of materials, supplies and services recorded in the census as used in the period.

¹ *Manuel de la classification type des industries, Statistique Canada (n° 12-501F au catalogue).*

² La "valeur ajoutée recensée" est un concept élaboré à partir du recensement des manufactures afin de mesurer la production d'un établissement ou d'une branche d'activité. Pour obtenir cette valeur, on déduit de la production brute au cours d'une période donnée la valeur des matières utilisées, les frais de chauffage et d'électricité, le prix de revient des biens achetés pour la revente et les frais occasionnés par certains services courants dans les établissements. La production brute peut être évaluée d'après les ventes ou les livraisons de tous les produits fabriqués ou achetés en vue de la revente ou de la production. Y sont inclus les revenus provenant des travaux à façon, les ventes d'électricité et la valeur des immobilisations produites par la main-d'œuvre des établissements pour leur propre utilisation. Parmi les termes équivalents dans les autres branches d'activité, citons: Dans le commerce - la marge bénéficiaire, soit la différence entre le chiffre des ventes et le prix d'achat des marchandises vendues au cours d'une période donnée. Dans le bâtiment - la différence entre les facturations, c'est-à-dire la valeur des travaux exécutés ou mis en place au cours d'une période donnée, et le coût des matériaux utilisés, majoré des sommes versées ou dues aux sous-traitants. Dans les services - la différence entre les recettes d'exploitation reçues ou acquises au cours d'une période donnée et le coût des matières, fournitures et services utilisés durant cette période selon le recensement.

companies are included with metal mining (SIC 053-057-059). The Business Finance Division's coding of the financial industry provides the most detailed classification possible. A list of the industrial classification codes and their descriptions are presented on the buff-coloured pages.

des mines métalliques (CTI 053-057-059). Le codage par la Division des finances des entreprises du secteur financier offre la ventilation la plus détaillée possible. Une liste des codes identifiant la classification type des industries et une brève description figurent aux pages de couleur chamois.

Corporate Ownership

Liens de parenté entre corporations

LIST OF ABBREVIATIONS

- CTL** indicates the country of control.
- SIC** indicates the Standard Industrial Classification.
- RES** indicates the country of residence, or if known the province of the head office in Canada.
- %** indicates the percentage of voting rights owned, usually in the current corporation by some preceding corporation (see **LEV**); except, however, for "INV:" corporations (see below), which hold the indicated portion of the enterprise parent.
- C** indicates a comment regarding the type of ownership.
- LEV** indicates the level of ownership; enterprise parents are shown as level "01", directly held corporations are level "02", and indirectly held corporations have larger level numbers; a level "N" corporation is directly held by the earliest preceding corporation with level "N-1".
- INV:** indicates an owner of the enterprise parent
- Comment Column (C):
- A** indicates that control has been assigned for reasons other than ownership of voting rights.
- D** indicates the corporation is not controlled by this enterprise.
- R** indicates that the corporation has already been listed within this enterprise, but it has more than one holding company. The companies that are in turn held are not also shown again.
- AD** indicates that control has been assigned to a different enterprise.
- AR** indicates that control has been assigned to this enterprise, and it is a repeated listing.

RÉPERTOIRE DES ABRÉVIATIONS

- CTL** désigne le pays de contrôle.
- CTI** correspond à la classification type des industries.
- RES** désigne le pays de résidence ou la province où est situé le siège social au Canada, si on la connaît.
- %** représente le pourcentage des droits de vote détenus, généralement par une société qui précède la société étudiée (voir **NIV**); toutefois, dans le cas des sociétés suivies de "INV:" (voir ci-dessous), le pourcentage indique la proportion des droits de vote de la société mère détenus par ses filiales.
- C** désigne un commentaire au sujet du type de lien de parenté.
- NIV** indique le niveau du lien de parenté; on donne le niveau "01" aux entreprises mères, le niveau "02" aux sociétés détenues directement, et des numéros plus élevés, aux sociétés détenues indirectement; une société de niveau "N" est détenue par la société de niveau "N-1" qui la précède immédiatement.
- INV:** désigne un propriétaire de la société mère.
- Colonne des commentaires (C):
- A** indique que le contrôle a été attribué en vertu d'autres critères que la propriété des droits de vote.
- D** indique que la société n'est pas contrôlée par cette entreprise.
- R** signifie que la société est déjà comprise dans la liste de cette entreprise, mais qu'elle a plus d'une société actionnaire. Les sociétés qui sont à leur tour détenues ne figurent qu'une seule fois.
- AD** signifie que le contrôle a été attribué à une entreprise différente.
- AR** indique que le contrôle a été attribué à cette entreprise, qui figure ainsi pour la deuxième fois.
